Dear USDOJ,

Please count me against the Microsoft Settlement.

I do not feel that the Microsoft Settlement is an appropriate remedy. Microsoft needs far more punitive damages to prevent them from continuing their illegal, monopolistic business practices.'

I am the person responsible for computer hardware and software purchasing decisions -- and support -- for our small company. I feel most frustrated with the poor quality of Microsoft software and windows software in general. I don't really have much of a choice of software to use considering Microsoft's monopoly.

Respectfully,

~Todd
